

IPC - During IPC we will examine events over time and how different inventions have had an impact on our lives today.

MATHS: Engaging through Inspire maths, we will continue our journey of learning skills, consolidate knowledge and re visit any skills to embed further knowledge where gaps have been identified.

ENGLISH: We will be focusing on story writing, breaking a story down into the different elements, then focusing and working on the different sections within these elements to embed the format to writing a story.

The children will work together to support each other and share their skills to then work independently in writing their own story.

### Science:

The children will develop their understanding of electrical circuits and build on the work in previous years. They will construct circuits with an increasing number of components and contrast the effects this has on the function of the components.

COMPUTING PROJECT: We will research and retrieve information to answer questions and provide knowledge about our topic.

ART/DT: Each week we will complete a COD lesson, building our sketching skills through close observational drawing of an object. We will link our art and DT to our IPC topic, recording work through creative ways using art skills.

OTHER SUBJECT: In RE, we will continue to learn about the religions our friends worship and through Christianity we will focus on Christmas. We will also cover PHSE, learning about Celebrating Differences, through discussion and activities.

**PE:** This term for indoor and outdoor PE we will be basketball and handball. Through these sports we will engage in being a team and working towards a goal.

**Music:** During this term we will continue to use the Charanga Scheme.

**Science**  
The children will develop their understanding of electrical circuits and build on the work in previous years. They will construct circuits with an increasing number of components and contrast the effects this has on the function of the components.

## YEAR 6

### CURRICULUM INFORMATION

**OTHER SUBJECT:** In RE, we will continue to learn about the religions our friends worship and through Christianity we will focus on Christmas. We will also cover PHSE, learning about Celebrating Differences, through discussion and activities.

**ART/DT:** Each week we will complete a COD lesson, building our sketching skills through close observational drawing of an object. We will link our art and DT to our IPC topic, recording work through creative ways using art skills.

**Computing Project:** We will research and retrieve information to answer questions and provide knowledge about our topic.

**IPC**  
Children will learn how we can interpret events to explore the attitudes of people in the past. What happened at different times in different cultures. How historical time can be recorded and measured and how we can sort, sequence and order the past.

**INTERNATIONAL:** All the Year 6 classes will continue to progress through skills in Spanish. Each class will also lead a British Sign Language singing assemblies over the term.
