YEAR 6 MATHS

See below

We were learning to measure distance, speed and time. We had 1 group measuring the MUGA, 1 group measuring the grass field and 1 group drawing shapes with chalk and measure it. To measure the MUGA and grass field, we used a Trundle Wheel. I learnt the formula to measure Speed.

FOOD CRITICS IN YEAR 6

See below

As part as our DT work, we tasted different Middle Eastern food. We tried pitta bread, hummus, olives, roasted red peppers and dates. I would recommend the hummus with pitta bread and the roasted red peppers because the hummus had a nice flavour and texture (smooth, creamy and tangy).
